In 1900, *Timothy Wilson* began showing movies in an outdoor pavilion at Tuscarora Park with a hand-cranked projector. Canvas would be draped around the building to make it dark inside. Twenty years later, a movie house was built in the village of Wilson on Young Street. *The Gem Theater* would hire piano players to accompany the silent movies shown. When sound motion pictures came to town in the 1930s, owner *Francis Tate* held viewings of *Gone with the Wind*.
